

## Network Video Recorder

**Version: V5.01.060 build240110**

### Release Note

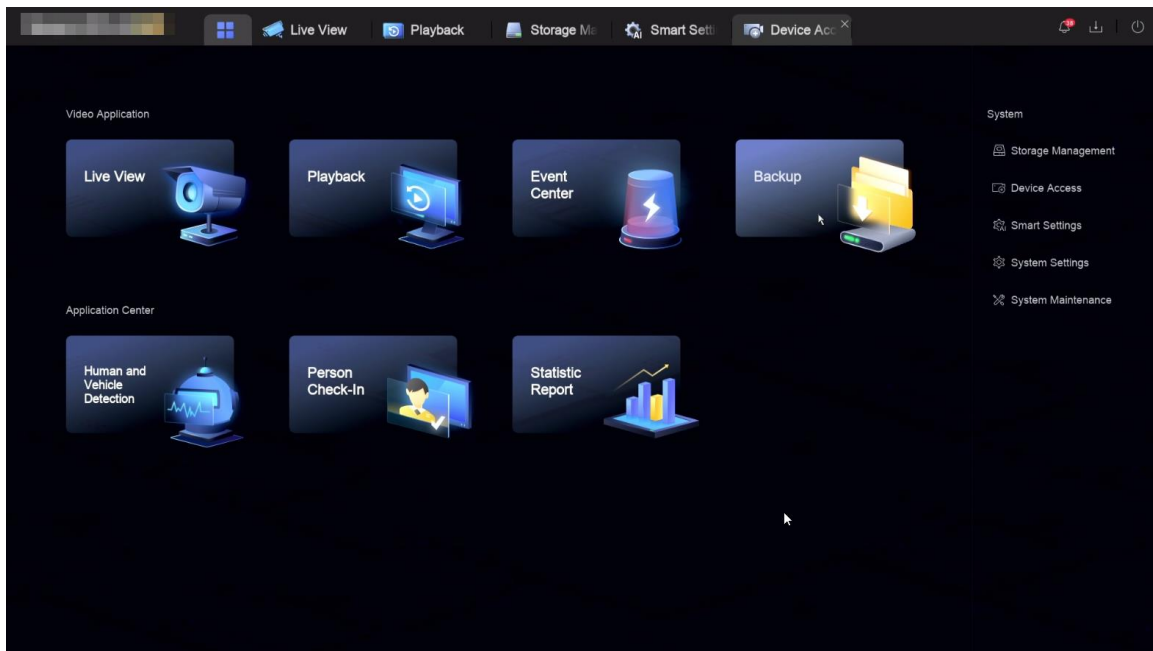

<b>Firmware Basic Information</b>	Firmware Version:	V5.01.060 build240110
	SDK Version:	V6.1.9.48
	Play Library:	V6.0.0.5
	Web component:	V5.0.1_R0102 build 231213
	OpenSDK Version:	V2.15.3 (Ezviz), V2.14.1(OTAP)

### Reason of Upgrade

User interface innovation. Add new features and optimize product performances.

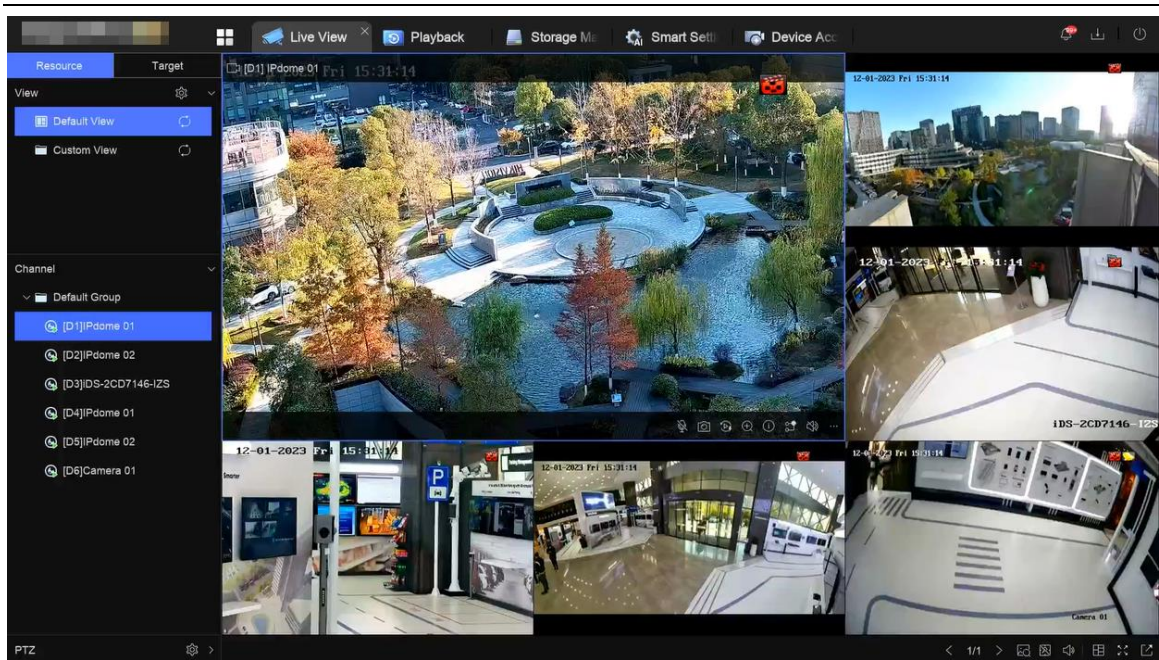

### New User Interface

## 【New User Interface of Local Output】

# HIKVISION

First Choice for Security Professionals

The screenshot displays the 'Storage Management' interface. On the left, a sidebar lists various settings: Storage Schedule, Video Recording, Picture Capture, Audio Recording, Storage HDD, Storage Mode, and Advanced Settings. The main area is titled 'Batch Schedule Configuration' and contains a table with the following columns: Channel Name, Enable, Record Schedule, Plan Details, and Advanced Settings. All 16 channels are enabled and set to 'All-Day Continuous' recording. A 'Save' button is located at the bottom left of the table.

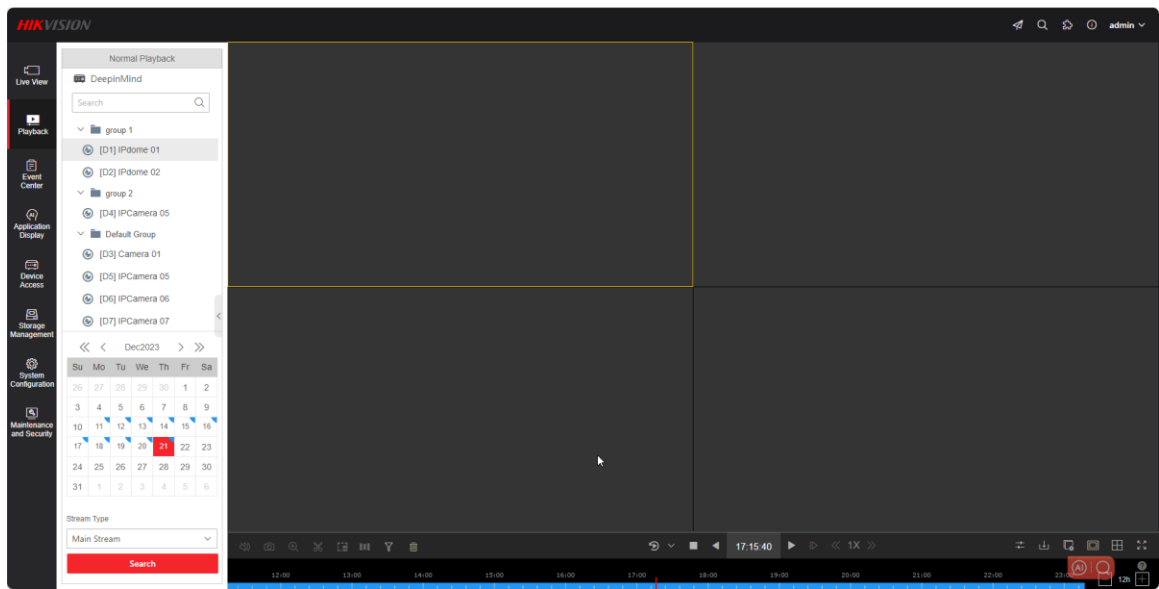

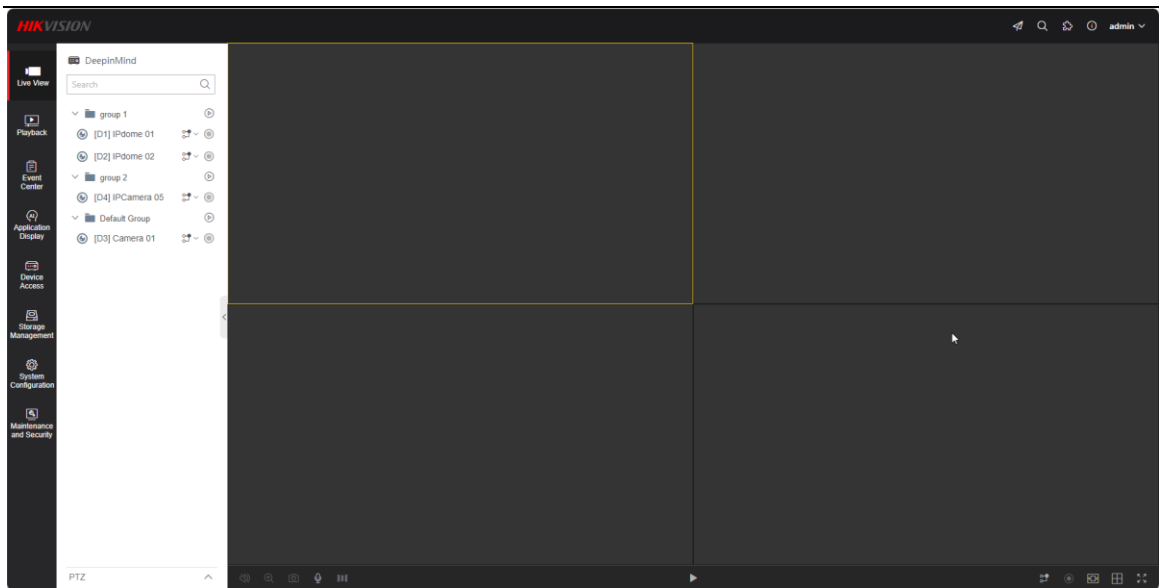

Channel Name	Enable	Record Schedule	Plan Details	Advanced Settings
[D1] IPCamera 01	On	All-Day Continuous	View	Settings
[D2] IPCamera 02	On	All-Day Continuous	View	Settings
[D3] IPCamera 03	On	All-Day Continuous	View	Settings
[D4] IPCamera 04	On	All-Day Continuous	View	Settings
[D5] IPCamera 05	On	All-Day Continuous	View	Settings
[D6] IPCamera 06	On	All-Day Continuous	View	Settings
[D7] IPCamera 07	On	All-Day Continuous	View	Settings
[D8] IPCamera 08	On	All-Day Continuous	View	Settings
[D9] IPCamera 09	On	All-Day Continuous	View	Settings
[D10] IPCamera 10	On	All-Day Continuous	View	Settings
[D11] IPCamera 11	On	All-Day Continuous	View	Settings
[D12] IPCamera 12	On	All-Day Continuous	View	Settings
[D13] IPCamera 13	On	All-Day Continuous	View	Settings
[D14] IPCamera 14	On	All-Day Continuous	View	Settings
[D15] IPCamera 15	On	All-Day Continuous	View	Settings
[D16] IPCamera 16	On	All-Day Continuous	View	Settings

## 【New User Interface of Web】

The login page features the Hikvision logo and a 'Welcome' message. The language is set to 'English'. There are input fields for 'User Name' and 'Password', with a 'Forgot password?' link below the password field. A prominent red 'Log In' button is positioned below the fields. The background is a 3D-rendered scene with a central server tower, a cloud icon, a camera, a smartphone, and a red alarm light, all connected by glowing blue lines. A small disclaimer at the bottom reads: 'When using the product, please respect the privacy and other rights of individuals.' The footer contains the copyright notice: '©2023 Hikvision Digital Technology Co., Ltd. All Rights Reserved.'

# HIKVISION

First Choice for Security Professionals

The screenshot displays the Hikvision Storage Schedule configuration interface. On the left is a sidebar with navigation options: Live View, Storage Schedule (selected), Playback, Picture Capture, Audio Recording, Storage HDD, External Storage, Advanced Configuration, Application Display, Device Access, Storage Management, System Configuration, and Maintenance and Security. The main area contains a table of recording schedules:

Channel Name	Enable	Recording Schedule	Advanced Configuration
[D1] IPdome 01	<input checked="" type="checkbox"/>	All-Day Continuous 5	
[D2] IPdome 02	<input checked="" type="checkbox"/>	All-Day Continuous 5	
[D3] Camera 01	<input checked="" type="checkbox"/>	All-Day Continuous 5	
[D4] IPCamera 05	<input checked="" type="checkbox"/>	All-Day Continuous 5	

Below the table is a pagination control: Total 4, 20/page, < 1 >, 1 / 1, Go.

On the right, the 'Schedule Details' section features a notification: 'Holiday schedule has higher priority than other schedule types. If you have configured holiday schedule, the recording schedule of other schedule types may be invalid. Go to System > System Settings > Holiday to adjust settings.' Below this is a calendar grid with days of the week (Mon-Sun) and hours (00-24). The grid shows a blue shaded area indicating a recording schedule. At the bottom of the calendar are 'Save' and 'Copy to...' buttons.

## Key New Features

### **【Support Smart Search Function】**

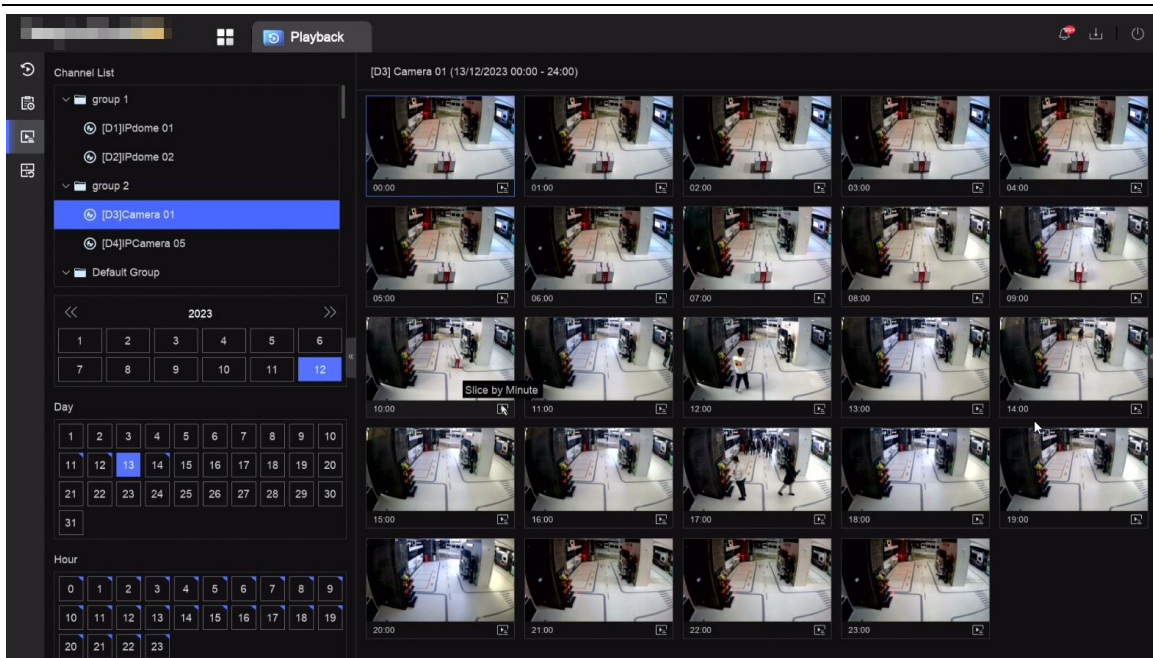

Support Smart Search function. Users can draw rules in the playback interface to retrieve video clips related to human and vehicle.

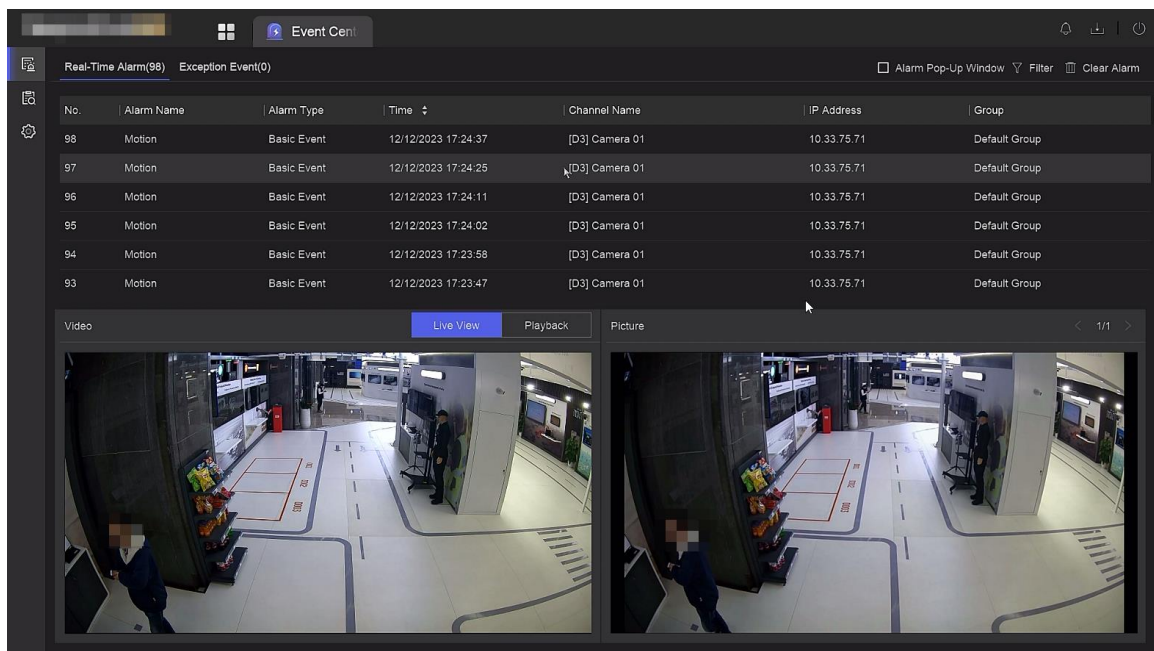

## 【Support Slice Playback Function】

Support Slice Playback Function. Users can slice the playback of a channel on a given day by the hour, and then slice an hour's playback by the minute, then find changing of certain scene.

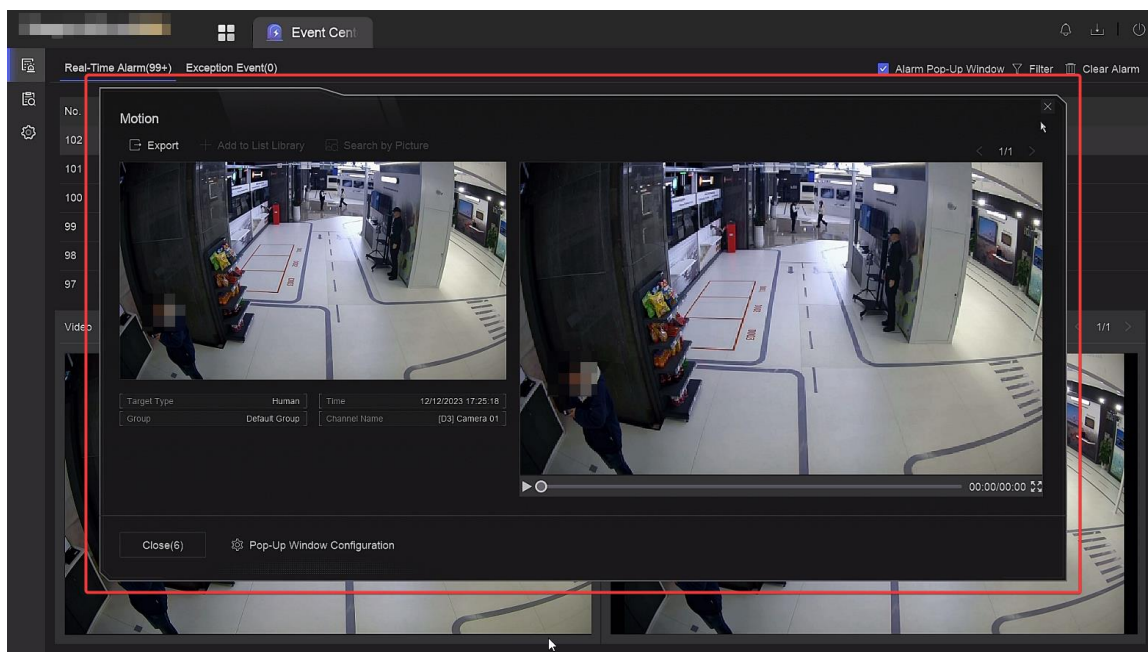

## 【Support Event Center】

1. Support Event Center. Users can view all real-time alarm, search all historical events and configure all events in this module.

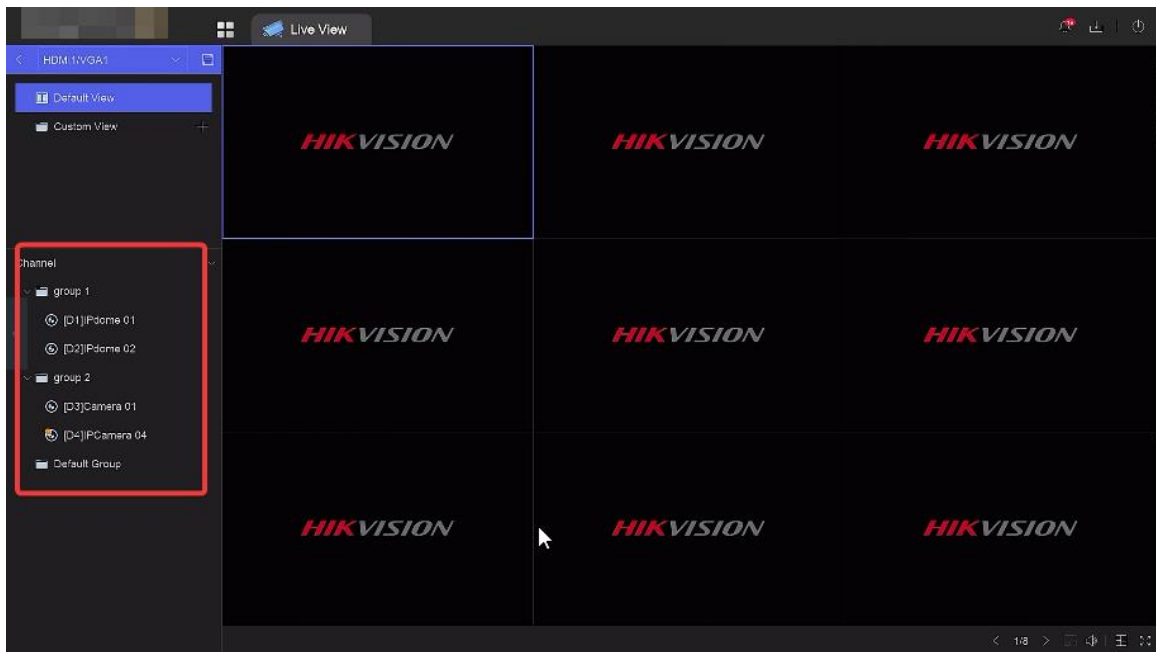

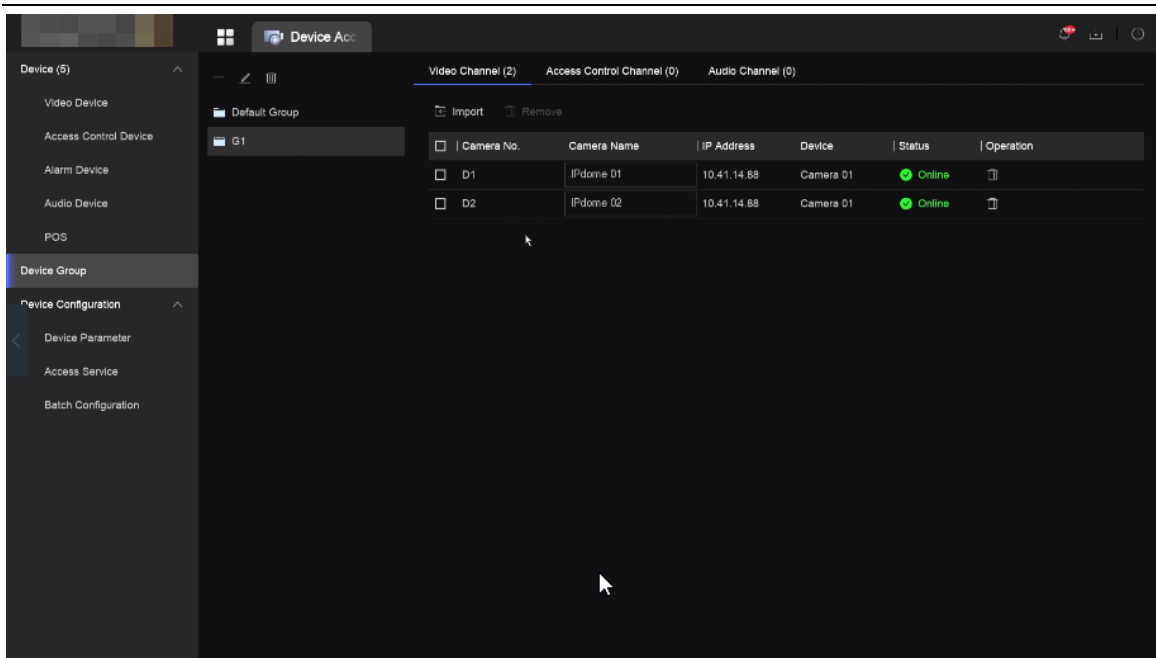

2. Support alarm pop-up window. Users can enable alarm pop-up window function to realize that when NVR receive an alarm, a window pop up to show detailed information about the alarm.

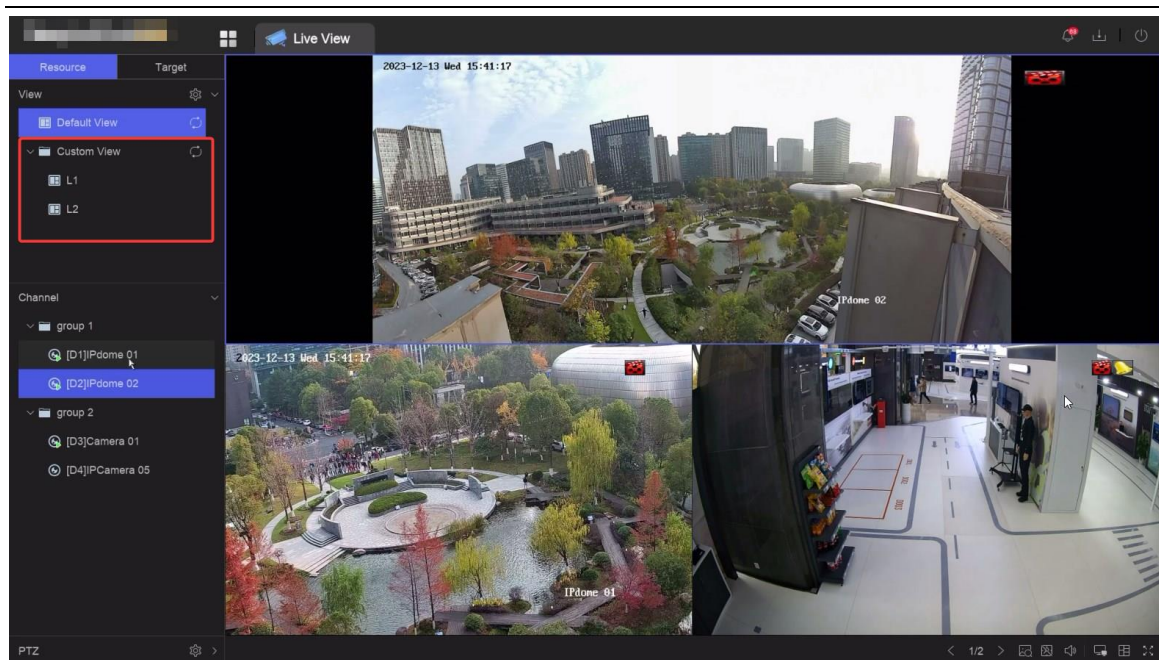

## 【Support Device Group Management】

Support setting different types of devices into different groups for more convenient management.

## 【Support Auto-Switch for Custom View】

Support creating different custom views. Then users can configure auto-switch among different custom views.

## Note

Please refer to User Manual to get information about more detailed new features.
